CUSTOMER INFORMATION This notification of Hazard is issued in the interests of the safety of this premise and the persons therein. It has been issued by an SSB Inspector as he/she considers your installation as unsafe. Note the following: You should contact an Electrical Contractor as soon as possible in order to ensure that the necessary remedial actions are undertaken		
You must only use a Registered Electrical Contractor (REC) to rectify the installation		
For a Registered Electrical Contractor (REC) visit <u>www.safeelectric.ie</u>		
Obtain a Certificate from the Registred Electrical Contractor on completion of the repair		

Disclaimer

This Notice of Potential Hazard is based on the findings of a partly visual inspection and partly random sample tests (where deemed appropriate) of the electrical works. It does not take account of any work covered up or inaccessible.

No liability can attach the SSB arising from the conduct of any such inspection, testing or contents of the Notice.
